

CX-2

Ultra Lightweight Side-Folding Electric Wheelchair

PRODUCT FACT SHEET

Product Overview

The CX-2 by Mobility Extra is a premium ultra-lightweight folding electric wheelchair designed for everyday independence, effortless travel and reliable mobility. Built with a strong yet lightweight aluminium frame, the CX-2 weighs just 17.5 kg - making it easy to lift into a car boot, store at home or transport when travelling. Unlike the MX range, the CX-2 features a unique side-folding design: simply lift both sides of the seat and the chair folds neatly inward in seconds, collapsing to just 33 cm wide. This makes it one of the most compact folded footprints in the Mobility Extra range. Ideal for shopping trips, cafés, family visits, holidays and daily use at home, the CX-2 combines genuine portability with smooth, reliable performance.

GENERAL INFORMATION	
Product Name	CX-2 Ultra Lightweight Side-Folding Electric Wheelchair
Brand	Mobility Extra
Model	CX-2
Range	CX Range (side-folding design - distinct from MX instant-fold range)
